

## NEW Member Program

By Peter le Roux (Editor)

Dear Friend,

It is with great pleasure that I would like to announce the launch of our NEW Member Program, which is **completely FREE** to join and participate in. All this has been made possible from the feedback we received from a number of our members who joined our pilot program. The NEW program has been simplified in every respect and is now far easier and quicker to use. For example, both the order and payment process is completed in only 4 clicks. Due to the incredible interest we have received from Doctors and other Health Care Professionals this new program has been launched globally.

The program runs on *AffiliateShop* software that has been specifically developed to meet the functional and unique requirements of our program. What you get when you join, is a fully integrated business tool that tracks all your sales and rewards in real time. The **Referral and Reward** program is now far more attractive than previously

### Inside This Issue

NEW Member Program	1
Matula transforms my Practice	1
Discharged from Ward D	2
Matula Herbal Formula expands Horizons	2
The Significance of a Gall Flush	3
Matula Treats a Range of Digestive Disorders	3

and I am sure that it is REALLY going to catch your attention!!!

If you have not yet joined our NEW Program and would like to find out how you can benefit from this *unique opportunity*, then please click on this link: <http://www.perfectly-natural-health.com/h-pro/intro.php>

New Members are also invited to take advantage of our **MATULA SPECIAL OFFER** of **BUY 5 and GET 1 FREE** that will enable you to earn an extra US\$285.

I would like to take this opportunity to welcome all new members to our **FREE Membership Program** and may all of you and your patients/clients be blessed abundantly in the years ahead.

## Matula transforms my Practice

By David Hompes MSc, BSc, HLC II, CMTA II

As a complementary health practitioner who specialises in helping my clients overcome the health problems caused by *Helicobacter pylori*, I have seen and experienced first hand, the profound healing potential of Matula Herbal Formula.

Through my website, [www.h-pylori-symptoms.com](http://www.h-pylori-symptoms.com), I am fortunate enough to receive

literally hundreds of emails each week from people around the world who suffer from *H pylori* infections and other chronic digestive complaints. It is clear from the messages I receive and the vast amount of medical research I have conducted, that *H. pylori* is grossly misunderstood by medical doctors and that the harsh regimens of antibiotics are becoming less and less effective.

## Discharged from Ward D

By Jon Morley MD

A few months ago I was approached by a company, owned by one of the world's most wealthy businessmen to help treat some of his staff in the advanced stages of HIV AIDS. This is a rather chilling yet incredible story.

One of his staff (Moses) was so ill that his Doctor had given up on him and he was admitted to a Hospice Ward D. The D stands for DEATH. When he was admitted he joined 8 others who sadly were all beyond treatment with ARV's. It was at this stage that I became involved.

I have known about an incredible natural product for quite some time that has exceptional anti-viral

*"I now realize that there is hope and LIFE beyond HIV AIDS"*

and immune boosting properties. This was an opportunity for me to use it on Moses who was literally days away from succumbing to his illness.

It was just two weeks into Moses's treatment when I realized that there is hope and life beyond HIV AIDS. His rapid recovery is nothing short of miraculous and he was discharged from Ward D. Sadly his other 8 colleagues weren't so lucky and he was the only one to walk out of Ward D. The incredible thing is that Moses started working again two weeks after he was discharged from Ward D.

## Matula Herbal Formula expands Horizons

By Jon Morley MD

Since I was introduced to Matula Herbal Formula in April 2006 it still continues to amaze me just how versatile it is. I have recently completed an initial Clinical study of a gel that has been formulated using Matula herbs to treat vaginal thrush. As you may well know this is a significant problem that many women are faced with in their daily lives and there are very few natural topical treatments that effectively treat it.

Well, amazingly, the results of the clinical study show a near 100% success rate. I have personally never experienced such an exciting result before. What is incredible is that it took just two applications and after further examination the thrush had been completely inhibited on all of my sample patients. After three months, each of my patients were still symptom free with only one showing a slight re-infection.

What I find really rewarding is the sheer delight that my patients express every time I see them.

They simply can't believe that they are free from what was once an ever present menace.

*"Clinical Study shows that Matula gel inhibits Vaginal Thrush in just two applications - and it doesn't come back."*

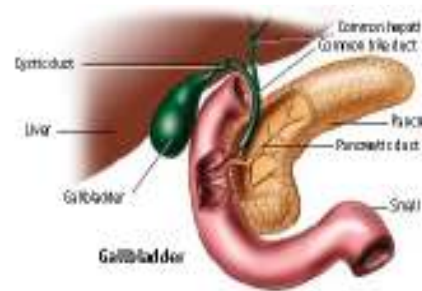

I have also been experimenting with this versatile gel in a cream form, using it as a broad-spectrum antiseptic. The following conditions have responded extremely rapidly and successfully: Impetigo, Acne, Septic insect bites, undefined skin rashes, Fungal foot infections, pretty much any mild skin irritation or infection. I am about to try the cream and gel with Psoriasis.

## The significance of a Gall Flush

By Jon Morley MD

Having treated hundreds of my patients, over the years, for *H. pylori* and particularly in the past 18 months I discovered that there were a few unexplained failures in treating the *H. pylori* effectively. This obviously caught my attention and I wanted to establish what was causing this. I began to focus on the fact that *H. pylori* is known to hide in the Gallbladder or common bile duct. I realised that the presence of antigens in the Gallbladder or common bile duct would result in a positive result for *H. pylori* and that this was causing the difference between success or failure of a treatment. I also established that this was particularly the case when patients have had *H. pylori* for 12 months, or more, prior to treatment. To increase the effect of treating *H. pylori* I started recommending a Gall Flush prior to commencement of the Matula Herbal Formula treatment. The Gall Flush has the effect of purging *H.*

*Illustration of the Gallbladder*

*pylori*. The result of this is that I now have a near 100% success rate in treating *H. pylori* effectively.

However, I do recommend that patients do a Liver Ultrasound before doing a Gall Flush to ensure there are no large stones present in the Gallbladder or in the common bile duct.

## Matula Treats a Range of Digestive Disorders

By Jon Morley MD

I have broadened the scope of treatment with the Matula Herbal Formula. I recently saw a lady with Ulcerative Colitis who absolutely refused to take antibiotics from her surgeon. She used the Matula Herbal Formula for two months, with remarkable success. She has made very little lifestyle changes, which are paramount in the effective treatment of this condition, and yet continues to get benefit from the Matula. I have used the Matula in several people that have GERD (Gastro-Esophageal-Reflux-Disease) where no fixed cause can be established. Again, the Matula has had amazing success in these people. After one month of the Matula Herbal Formula, their symptoms abate for usually around three to four months, without the need for any of the usual drugs or natural remedies that are commonly used for this chronic condition.

I usually use natural products in my work. As you will appreciate from your own experience, these too need to be taken on either an ongoing basis, or at least for quite some time before effective tissue healing takes place. I have found that with the use of Matula, I don't need to use other remedies in this ongoing fashion, but Matula seems to do such a good tissue healing job on its own.

This is a great advantage over any other natural product that I have ever used before.

## Matula Transforms my Practice... (from page 1)

I came across Matula while researching natural solutions to Helicobacter pylori in 2007. At the time I was suffering with H. pylori myself – symptoms included nausea, morning vomiting and chronic heartburn – and wanted to find the most effective and convenient healing product for eradicating the H pylori infection. After one cup of Matula, my heartburn disappeared and has never returned. Within one week, all my symptoms had been cleared. Now, I know this sounds hard to believe, but I assure you it is absolutely true. Within twelve hours of my first cup of Matula, a severe attack of heartburn had gone completely.

Having achieved great success with my own condition using Matula, I quickly started recommending it to my clients. In every case I have worked on so far, I have managed to clear H pylori in 100% of my clients using Matula Herbal Formula. I'll say that again, *on re-testing clients after 30–60days on Matula, using a stool antigen test, 100% cases have been cleared.*

I have found that Matula works best when it is

taken as part of a comprehensive health programme. H. pylori is not usually the only factor causing problems. Most people who have H pylori also need to cut gluten and other foods from their diet to reduce inflammation. In fact, gluten can cause similar symptoms to H. pylori!

Because of the inflammation caused by H. pylori, stress hormones tend to slip out of balance, leading to adrenal fatigue. I commonly see depression, anxiety, sleep problems, headaches, PMS and low libido in H. pylori sufferers. In these cases it is important to address the whole story because clearing the H. pylori may not be enough to overcome these other symptoms.

I have written a book containing the complete nutrition, lifestyle and healing protocol that I use to clear H. pylori. Copies are available by emailing me through [dave@davehompes.com](mailto:dave@davehompes.com).

My practice has benefited significantly from the use of Matula Herbal Formula and I look forward to using it to help many people overcome their infections in the future.

## Discharged from Ward D... (from page 2)

I also treated Mose's work colleague, Lloyd with this exceptional anti-viral too. He was also in a very poor state of health with HIV AIDS, but fortunately, not quite at the stage of Ward D. The good news is that within two weeks he too was fit enough to return to work.

There is no doubt that this potent anti-viral and immune booster has a big future.

*"There is no doubt  
that this potent  
anti-viral and immune booster  
has a **BIG** future!!!"*

*If you would like to know more information about this potent anti-viral and immune boosting product then kindly email us at [customerservices@perfectly-natural-health.com](mailto:customerservices@perfectly-natural-health.com).*

### SHARING YOUR SUCCESS OR EXPERIENCES

*If you would like to share your story or experiences relating to Matula Herbal Formula with other Members, then please feel free to email me with your story to [peter.leroux@perfectly-natural-health.com](mailto:peter.leroux@perfectly-natural-health.com)*
